# COURT OVERVIEW

## **SERIES P - THE MARTITA**

**EVERYTHING YOU NEED TO KNOW**

# An Absolute American Twist on the European Classic

Discover the Martita, Absolute Padel's Series P court, a game-changer in the world of padel sports. While other padel courts settle into conformity, the Martita breaks the mold. Reimagined from the ground up, this court isn't just built—it's crafted with precision,

shedding the usual constraints for a design that's not only stronger but also smarter. Engineered for superior assembly and enhanced longevity, the Martita demands less maintenance, letting you focus on the game, not the gear.

But at Absolute Padel, excellence is just our starting point. We've taken all these revolutionary upgrades and managed to keep the Martita competitively priced. Why? Because we believe your club deserves top-tier quality without the top-tier costs. Our American-made and serviced courts ensure that investing in the Martita is an investment in sustainable excellence.

Whether you're envisioning a single court oasis or a twenty-court empire, choose the Martita—the cornerstone of padel innovation. Make the Absolute Padel Series P: The Martita the foundation of your club's success. Elevate your padel program, captivate your members, and let us help you build not just courts, but a legacy.

# The Best Materials Make the Best Court

- **Introducing the Martita:** the powerhouse of padel courts. Think of it as the F350 Super Duty of the padel world—fortified with 40% more steel than its counterparts for unyielding strength and durability.
- **Set It and Forget It:** Thanks to our Superflex Powder Coat, you can wave goodbye to chipping and cracking. Enjoy pristine condition without the hassle of constant upkeep.
- **Perfectly Proportioned:** With measurements in English Imperial units, there's no need to wrestle with metric conversions—seamlessness in design and use.
- **Tailor-Made Brilliance:** Customize your Martita with an array of colors, lighting, and signage options to echo your club's unique ethos. Make the court as distinct as your club's character.
- **Designed to Withstand:** Featuring robust 3×3 pillars and half-inch thick glass, the Martita stands firm against the fiercest winds, setting the standard for structural integrity.
- **Uncompromising Quality:** We construct every inch of the Martita with forged 1/8" wall steel across all pillars and mesh panel frames—eschewing the flimsy for the formidable.
- **Endurance Engineered:** High-grade stainless steel fasteners ensure a rust-free existence, making the Martita ideal even in coastal climates.
- **Seamless Play:** Our AP Super Turf delivers the most durable, low-maintenance playing surface available, virtually eliminating visible seams and smoothing your path to victory.
- **Versatile Game Play:** Whether it's padel, multisport, or pickleball, the Martita adapts to your diverse sporting needs with ease.
- **Visionary Clarity:** Experience the clearest views behind our AP High-Temp Structural Glass—the strongest, most transparent glass walls in the market, proudly made in the USA.
- **Optimal Illumination:** Engineered lighting for the Martita is precisely balanced to illuminate your plays without casting shadows beyond the court.
- **Local Expertise:** Our padel court installers are just around the corner, ready to ensure your setup is flawless from the start and every game thereafter.
- **Transform your venue with the Martita**—a monument to innovation and a testament to endurance in the spirited world of padel.

# If You Want the **ABSOLUTE Best Padel Court** Available, This is it.

To us, each padel court is far more than a mere space for the sport we love; it's a canvas for architectural artistry. Yes, adherence to official dimensions is essential, but the true magic lies in how the elements—the turf, glass, and the steel—are orchestrated. Our team of visionary designers and engineers relish the opportunity to craft a court that embodies the elegance and allure intrinsic to padel itself.

**The Martita is our masterpiece, blending functionality, durability, and grace into a uniquely American interpretation of the classic European pillars padel court. It's the same innovative design that graces the prestigious USTA National Campus in Lake Nona, Florida, offering a testament to its excellence.**
